1. Introduction

The Association of Sport Performance Centres (ASPC) hosts an international Forum on Elite Sport every two years. The goal of the biennial forum is to explore ways to better collaborate across the world, to provide an opportunity for sharing of best practices and for professional development of the leaders of high-performance training centres. Due to the COVID pandemic, the 2021 ASPC Forum was delayed until December 2024, however, the Forum will also be held in 2025 to retain our schedule of hosting the event in non-Olympic years.

2. Background on the ASPC

Prior to the 2000 Sydney Olympic Games, a group of personnel representing High Performance Training Centres from around the world got together to share their experiences. Building upon this positive experience, the Association of Sport Performance Centres (ASPC), formerly the International Association of High Performance Sports Training Centres (IAHPSTC) was conceived in Barcelona on September 11th, 2001. Over the past several years, the ASPC has become formalized and has established a Secretariat in Catalonia, Spain, hosted at the Centre d'Alt Rendiment de Sant Cugat del Valles, Barcelona.

Biennial Forums have been held on eleven occasions:
