

# IAHPSTC New Web Site 3rd Generation

The screenshot shows the IAHPSTC website interface. At the top, there is a navigation bar with language options (Español | Française | Català), a login field, a password field, and links for 'Sign in' and 'Forgot the password'. Below this is a large banner image of a stadium with the IAHPSTC logo and the text 'International Association High Performance Sports Training Centers'. A secondary navigation bar contains links for 'Centers', 'Forums', 'News', 'Association', 'Resources', and 'Multimedia'. The main content area is divided into three columns. The left column features a 'NEWS' section with a headline 'BoD meets in Paris on 30th and 31st of March 2009' and a sub-headline 'INSEP host the meeting of the IAHPSTC Board of Directors...'. The middle column has a 'FORUMS' section for 'September 9 - 13, 2009, Colorado Springs' with links for 'Program', 'Registration', 'Form', and 'Gallery'. The right column is titled 'Center of the month' and features a box for the 'Victorian Institute of Sport (VIS)' with an image of the stadium and contact information: 'Address: Leverrier Crescent, Bruce Act 2617', 'City: Canberra', and 'Country: Australia'. A 'More info >' link is at the bottom of this box. At the bottom of the page, there is a footer with 'Contact | Legal | Copyright' and social media icons for Facebook, YouTube, and Flickr.

# Second website based on Content Manager Technologies in 2008

## Centralized database of centers

The screenshot displays the website for the International Association of High Performance Sports Training Centers (IAHPSTC). The header features the organization's logo and name, along with the text "International Forum on Elite Sport". Below the header is a banner image showing various sports facilities. The navigation menu includes "Association", "Centers", "Forums", "News", "Docs", "Links", "Gallery", and "FAQ". The main content area shows the breadcrumb "You are here: » Centers" and a list of centers categorized by region. A large, faint watermark of a stylized figure is visible in the background of the main content area.

### Forums

After the success of the I Forum, held at Sidney on September 1999 and the II Forum, held at Barcelona on September 2001 -in which assistants could hear and share in interesting presentations and also could share the great motivation and enthusiasm of the organizers- is clear that we need to keep having a common place for the people and the organizations that work in the elite sports' field, in order to exchange experiences and information.

The Forum's philosophy is to provide a means of putting ideas in common and a place of discussion for all the people working in the elite sports' field. In this time in which globalization affect all aspects of our lifes, we need to find ways of enlarging the bonds between Centres devoted to elite sports and of involving all the people working in this activity.

The general aim of the Forum is to establish routes of communication and mutual collaboration between the different High Performance Centres around the world and the people and organizations interested in elite sports.

Other aims are to promote the establishment of a place to exchange information and experiences between people, organizations and institutions interested in elite sports; to provide all assistants a suitable environment in order to establish collaboration agreements between High Performance Centres and to help the creation of common initiatives that will benefit all High Performance Centres and that will provide reliable and true information about elite sports to the society.

# New Strategies in Sports Facilities

ining in High Performance demand a high quality  
sonalized process

i-Sport Venue Principles:

- Balance Health vs Performance
- Modularity
- Integration
- Non Invasive
- Instant Feedback
- Control
- Quality
- Ecology

# Sport Venue Principles:

Balance Health vs Performance

Performance in focus Health is the way

Modularity

Grow on your needs with commitment

Integration

Simplify complexity. Unify the process

Non Invasive

Respect the freedom of sport

Instant Feedback

Return the relevant info to help improvement

# i-Sport Venue Principles:

- Control

Where you are where you go

- Quality

Consistency bring back the good results

- Ecology

Enviroment is a common concern

# i-Sport Venue Technology Requirements

- TTU - Training Units
  - Coach / Athlete / Sport Facility / Tech Equipment
  - Differs between specific events

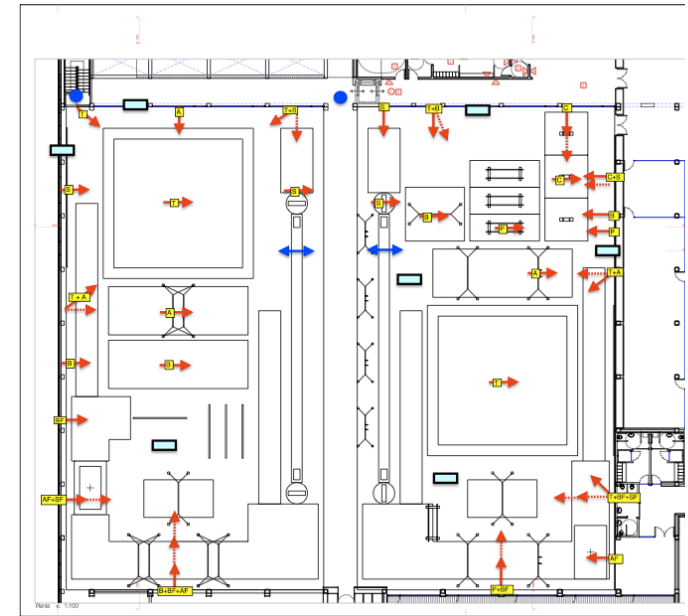

## TTU - Training Units Characterization

- Technologically adapted sport equipment
- Information Systems based on IP
- Continuous multidimensional recording
- Permanent Biofeedback
- Wireless based
  - ( Gathering / Display / Control )

# Tools on Design

- Interactive Visualization on 3D to help on objects location

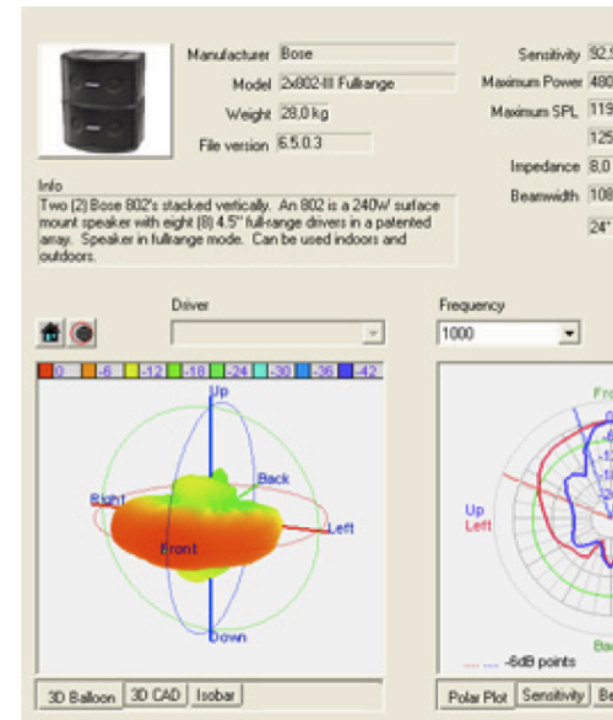

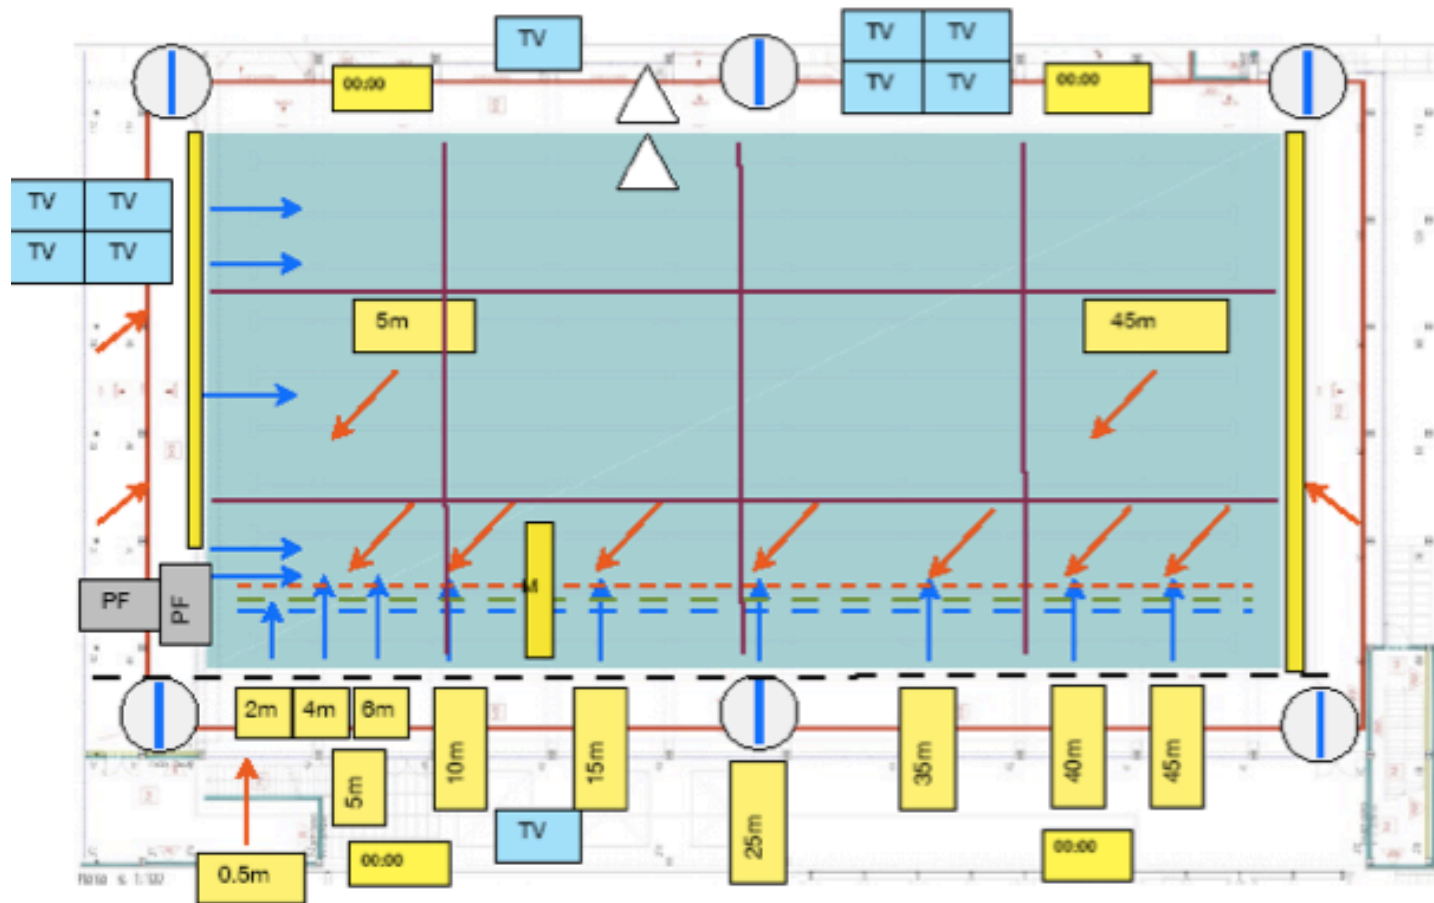

To setup 200 HD Cams  
and Videowalls and  
discuss with coaches
